ELECTRONIC POST PUNK // DARK DISCO // COLDWAVE

Combining a techno strictness with new wave intensity, detailing a society's illness with extreme accuracy, THE MIDNIGHT COMPUTERS will bring a lightness to your feet, if not your chasm of despair. Dwelling in the vein of Skinny Puppy, Fugazi, NIN, Alien Sex Fiend, Killing Joke, and The Soft Moon, their ferocity is matched with a remarkably energetic dance beat. **POST-PUNK.COM**

BIOGRAPHY

The Midnight Computers was born from the mind and guts of Jonathann Cast and his friends, willing to show their love for the dark side of the 80's.

Mixing the strictness of techno to the intensity of new wave synths, The Midnight Computers will make you dance to your anxiety.

Their second album « Romantic Disaster » is immediately spotted, signed and pressed by Manic Depression records.

Eight powerful coldwave tracks for self-surrender like a wrecking-ball on the dance-floor.

Now, let The Midnight Computers makes the heart beat through machines.

ROMANTIC DISASTER LP

[LISTEN ON BANDCAMP](#)

The Midnight Computers present its second opus: Romantic Disaster.

Dark electronic adventures at the heart of human weaknesses, torn between love, hate and fears.

Eight tracks to really feel the weight of forgiveness and self-surrender, introspective meditation and cathartic hallucination, stabbed with strobes.

The ideal coldwave soundtrack to driving full speed into a concrete wall and come out unscathed.

ANXIOUS LP

Some experimentation between post-punk, new-wave and industrial.

Out 30th April 2020 in vinyl, cd and digital on Manic Depression & Swiss Dark Nights records.
